No more pretentiousness

The new generation of Tyrell, refined only to synchronize with the rider.

FCX is a completely new concept in folding bikes, not for speed, but for the pleasure of interacting with the bike, with a new generation of Tyrell folding platform and a chromoly frame featuring slant design technology that makes the most of its flex to create a "one with the rider" feel.

Its frame and fork are "Made in Sanuki" products manufactured at our own factory in Sanuki-city, Japan, and are available on a fully made-to-order basis. Two frame sizes (MS, ML), 190 frame colors to choose from, etc. - We will deliver a bike that is uniquely yours, reflecting your detailed requests.
